

# Quick Start Guide Modulo

## On-Board Computer with Key Identifier

The on-board computer with **touchscreen** find it left of the steering wheel.

In the gloves compartment is a plug-in box for the vehicle key and its attached chip.  
Pull the chip out of the slot of the plug-in box.

The fuel card and - if necessary - the parking card can also be found in that plug-in box.

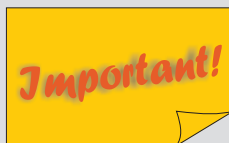

### **Caution:**

The chip may not be separated from the vehicle key.

## During your Booking

Always open and close the car with the vehicle key.

The vehicle key must be taken along if you leave the car during your booking.

## End of your Booking

Insert the chip with the vehicle key back into the slot of the plug-in box in the gloves compartment.  
Only then you can close the vehicle as usual with your teilAuto-chip card.
